Prabhunath E-Traders is a full-service E-waste management company based in Pune, Maharashtra. In today's business world, you need a partner who can help you take advantage of E-waste management.

PRABHUNATH TRADERS is authorized By Maharashtra Pollution Control Board E -Waste Collection Segregation Refurbishing Dismantling organization to a wide range of businesses all over India, our company since 2008, located at pune India

We engaged in handling Recycling & reusing of E waste in eco friendly way The initiative is to aim at reducing the accumulation of used and discarded electronic and electrical equipment's, which most end up in landfills or partly recycled in a unhygienic conditions by backyard recyclers and then partly thrown into waste streams damaging the environment. The objective of Prabhunath traders is to create an opportunity to transfer waste into socially and industrially beneficial raw materials like valuable metals, plastics and glass using simple, cost efficient, home grown, environmental friendly technologies suitable to Indian Conditions.

E-Waste has become one of the primary concerns as the ever increasing number of devices that human life has to rely on is increasing day by day, making it highly essential to manage E-Waste in a sustainable and greener way. Prabhunath Traders, is a pioneer in asset management and electronics recycling, with its top of the line services to efficiently manage, dispose and recycle discarded electronic items. Our portfolio of services includes; comprehensive and eco-friendly recycling services as well as end-to-end E-Waste recycling and metal extraction solution. Prabhunath Traders. Has a state-of-the-art facility for extracting reusable resources from electronic waste under the supervision of its highly skilled staff that pay maximum attention to ensure that all the recycling tasks are carried out in an eco-friendly manner.

ASSET MANAGEMENT

Want to extract some value from your company's older, out of date computers? Prabhunath traders, Pune has you covered! Our Asset Management service provides you with the opportunity to offset the cost of office electronics that are no longer in use. If those computers, printers, scanners and copiers are sitting in a storage room taking up space, there's a much better alternative

If your website is already built but isn't performing to expectations, we can perform a detailed audit and work with you to improve site architecture, design, and responsiveness.

ASSET REFURBISHMENT

After refurbishment, all the devices go through complete Quality Control (QC) checks by our technicians. Technical analysis of each refurbished device is provided to the customers to ensure complete satisfaction and confidence in our refurbished products. Refurbished products are available at 70-80% lesser costs than the new products. We are also providing standard warranties on our products with extended warranty options available.

Our Services

CERTIFICATE

To check the implementation of the e-waste guidelines, there is a set of compliances and evidences that are required for your government records. This is included in the MPCB guidelines and has become mandatory for all the bulk consumers, traders and manufacturers and electronic and IT items.

We offer a complete set of compliances required for your records as per the MPCB guidelines. The entire process is streamlined and managed by our sustainability team for our client's satisfaction. We provide a 'Green Certificate' of our clients after the safe disposal of their e-waste. Being a government authorized recycler; it is our responsibility to follow all the compliances as per the law offer a hassle free service to our clients.

DATA DESTRUCTION

DATA DESTRUCTION CAN BE DONE BY THREE WAYS

1. **Data destruction** is the process of destroying data stored on tapes, hard disks and other forms of electronic media so that it is completely unreadable and cannot be accessed or used for unauthorized purposes.
2. **Physical** Physical destruction by shredding.
3. **Electronic Data Wiping:** We do the Electronic data wiping for SAS, SATA, SSD hard drives, tape drives which assures you a safe wiping with certification. Through the patented Erasure software your organizations now have a secure method to erase data on storage devices- regardless of underlying technology - in a cost-effective, secure and eco-friendly manner. Ensure your sensitive data has been permanently erased from your IT assets with the most certified disk erasure software solution on the market, with a 100% tamper-proof report.

Our Services

ERP

We have a perfect solution for all bulk producers of electric and electronic equipment to meet their EPR targets. We ensure a transparent model of operation in the process with an expertise to meet the targets in a specified timeframe. Prabhunath Traders have adopted extended producer responsibility to help address the growing problem of e-waste - used electronics contain materials that cannot be safely thrown away with regular household trash..

REVERSE LOGISTICS

Prabhunath traders has tie up for pickup with Gati KWE Logistics Company Reverse logistics has also been defined as the return/exchange, repair, refurbishment, remarketing and disposition of products. Reverse logistics has become an important way for companies to improve visibility and lower costs across the supply chain. The reverse logistics process starts with the point of consumption and ends at the point of origin, with the purpose of recapturing value or ensuring proper disposal.

Our Services

SAFETY TRANSPORTATION

E-waste carrying identification slip
